

FORSAKEN MY FIRST LOVE

Is it too late / To come back again / I am such a hypocrite how can You call me friend
Is it too late / Have I lost it all / And given up my birthright for not heeding Your call
Is it too late / Can I be restored / I see that I have nothing if I don't have You Lord

I saw You waiting / Thinking about me / Crying all alone
I chose to leave You / To live for my pleasure / Betrayed the greatest Love I've known

(Chorus 1) I have forsaken my first Love
And I am so lost without You
I have forsaken my first Love
And now I'm crying out for Truth
I have forsaken You

Is it too late / For me to come around / Is Your cup of wrath full and flowing to the ground
Is it too late / Am I one of those / Workers of iniquity that You don't even know
Is it too late / For me to kiss the Son / I see that I'm not worthy in light of all I've done

I saw You weeping / Beneath that oak tree / In our secret place
Something was missing / It was my presence / Because another love I've chased

(Chorus 2) I have forsaken my first Love
I would not have me if I were You
I have forsaken my first Love
Lord hear me calling out to You
I have forsaken You

(Bridge) Help me to truly repent / I don't want to fall again / For this reason You were sent
Help me to make a new start / My life is falling apart / Create in me a clean heart

Is it too late / For me to walk in light / Have I lost my destiny for running to the night
Is it too late / For me to love the Truth / With such tendency to sin can I really love You
Is it too late / I don't trust myself / There is nothing good in me and I'm deserving hell

I saw You wanting / Your dear companion / But I was not around
I was so selfish / You I abandoned / I have let You down / And no peace I've found

(Chorus 3) I have forsaken my first Love
And I am so lost without You
I have forsaken my first Love
And now I'm crying out for Truth
I have forsaken my first Love
I would not have me if I were You
I have forsaken my first Love
Lord hear me calling out to You
I have forsaken You
