

TAKE ME HOME

Life is full of change
Nothing stays the same
And it brings such pain
Without you
Seasons come and go
Out of my control
Different mocks my soul

(Chorus) Take me home
Lead me yester year
Make things how they used to be
You not gone
You beside me here
You the only one I see

Silence fills the place
Where life once was traced
Time cannot erase
My love for you
Yet another nail
In the coffin shell
Death it hurts like hell

(Chorus)

Take me

(Bridge) Change you know it feels as though it tells me to let go
New day seems to with it bring a claim of better things
But there's just no way to replace or surpass
Those glorious days full of grace in the past
I'm never letting go
I'm never letting go
I'll never let you go

Dear friend yesterday
You've gone far away
Wish you'd come and stay
Please stay

(Chorus) Take me home
Lead me yester year
Make things how they used to be
No more gone
No more waking fears
No more only memories
Take me home
Lead me yester year
Make things how they used to be
Never gone
Right beside me here
You're the only one I see
Take me
