

THE OTHER SIDE

This mountain so high
This river too wide
But I'll be found singing Your song on the other side

This desert so dry
This valley too deep
A thousand deaths I've died for this one truth to keep

(Chorus) The other side is calling me
This is my hope my destiny
And I shall live because You died
It won't be long before I'm on the other side

This forest so thick
This journey too far
But I'll be found shining in the end eternal star

This ocean so dark
This life all too strange
A million tears I've cried from overwhelming pain

(Chorus) The other side is calling me
This is my hope my destiny
And I shall live because You died
It won't be long before I'm on the other side

(Bridge) I will praise You with my life
I'm a living sacrifice
I will love You with my life
I'm a living sacrifice

No place I could go
That You have not been
You're with me now and I'll be with You in the end

(Chorus) The other side is calling me
This is my hope my destiny
And I shall live because You died
It won't be long before I'm on the other side

(Outro) I will praise You with my life
I'm a living sacrifice
I will love You with my life
I'm a living sacrifice
I will serve You with my life
I'm a living sacrifice
