

# GRACE DIABOLICAL

I want no part in what they do / Embracing lies Forsaking Truth  
They close their ears and shut their eyes and reason to their own demise  
The Church's doors they open wide and see that no one is denied  
The Broad and Easy way they preach to please those who are listening

(Chorus) This is not the One Gospel / This is diabolical

They do not seek or love God's ways for if they did they would obey  
For true disciples love His truth no matter what it makes them lose  
But they exalt man's reasoning and Scriptures misinterpreting  
Though they claim to follow Christ they're blessing that for which He died

"Darkness is not dark" they say "And surely now the night is day"  
"And based on culture truth dissolves / Our understanding has evolved"  
Beneath the banner "love and peace" they actually oppose these things  
In arrogance they compromise and harmonize with Satan's lies

(Chorus) This is not the One Gospel / This is diabolical  
Masked as theological / This is antichrist evil

They claim God's grace is there for all but they refuse to heed His call  
For Jesus said deny yourself take up your cross and hate all else  
The Prince of Peace comes with a sword and He divides and does abhor  
His judgment He will bring about He calls His people to come out

(Bridge) Time of separation / Line of demarcation  
Grace leads to repentance / Teachers say no to ungodliness  
By the Spirit in us we can overcome in righteousness  
Work out our salvation / True sanctification  
There is no excuse for sin / When we have been born again  
There is no darkness in Him / We walk according to His life within

For him who has ears to hear / There is only One to fear  
This is not of God's Kingdom / This is part of Babylon

This is of antichrist / It hates the path of Life / Apostate church that does rebel is from the pit of hell  
This is despicable / This is contemptible / This is demonic pathologic grossly dark evil  
This is such mutiny / Deserving scrutiny / Perverting grace we do embrace God's very enemy  
This is of Lucifer / This is insufferable / He comes as an angel of Light but is prince of the night

This is the great apostasy and few be those that aren't deceived  
Malevolent this false salvation rouses God to indignation  
Everything to its own place / The Judge is coming and makes haste  
So let the night be darker still and let the Light be fully revealed

(Chorus) This is not the One Gospel / This is diabolical  
Masked as theological / This is antichrist evil
